cometogethr

cometogethr is a location-based social networking application that lets you join and create groups of people with mutual interests, view their location on the map, contact or meet them and share content. No more constantly updating your buddy list, every new member of your groups is instantly displayed on the map both on mobile device and website.

The logo for 'cometogethr' features the word in a lowercase, sans-serif font. The letters 'comet' are in a dark purple color, while 'togethr' is in a lighter, pinkish-purple color. The letters are closely spaced and have a slight shadow effect.
